## **SIGNIFICANT EVENTS:**

### **OPEN:**

**SEPTA EQUIPMENT ISSUE – Philadelphia County, 2/6/17** – During normal maintenance checks, SEPTA discovered support-beam cracks on some SEPTA Market-Frankford Line rail cars. The cracks were in a body bolster (a main load carrying structural beam). Starting today, SEPTA will have a temporary shortage of rail cars during peak travel times. All trains currently in service and expected to be operating today have been inspected. Trains are expected to operate with longer headways resulting in delays and crowded conditions. Supplemental bus service will be provided during the AM Peak of 0600-1000 hours and PM Peak of 1500-1900 hours. SEPTA will also have personnel at each station to help manage the crowding conditions.

**BUILDING FIRE – Chester County, 2/4/17** – A structure fire occurred at 405 Market Street in Oxford Borough. American Red Cross was called in to assist the 54 displaced residents. A firefighter from Cochranville Fire Company was transported to Jennersville Regional Hospital for a laceration to the wrist received from broken glass while ventilating a window. The fire is out and all units have left the scene.

**SEWAGE SPILL – Venango County, 2/1/17** – A break occurred in an eighteen inch main sewer line south of the Veterans Bridge in Oil City. The North-Side Pump station is currently shut down. The release was coming out of the Combined Sewage Overflow Number 10 Pipe and was discharging 1,600 gallons per minute into Oil Creek, a tributary of the Allegheny River. The discharge is currently being diverted into an overflow system. The city will wait until repairs to the concrete casement of the pipe are completed before they will begin to pressurize the affected line. The PA Department of Environmental Protection advised the PA American Water Company to notify the nearest water intake downstream which is in Emlenton Borough, 33 miles down the Allegheny River.

**ROAD CLOSURE – Bucks County, 1/20/17** – Interstate 276 East is closed at Exit 358 East due to bridge painters finding a bridge truss beam had snapped in half near Wood Avenue in Bristol Township. Plan X was established and New Jersey closed the westbound side of the bridge. The PA Turnpike requested a Wireless Emergency Alert to be sent out through the Integrated Public Alert System regarding the closure and detour. A conference call was held on Sunday between the PA Turnpike, bridge engineers and consultants to discuss the next steps. Bridge Engineering advised that the bridge closing will be extended to three weeks. PSP will assist Turnpike Maintenance with traffic control at the Delaware Valley Interchange throughout the duration of the closure. The detour for the bridge closing is US 1 North, to I-95 North, to I-295 South, to I-195 East, to Exit 6-reentering the NJ Turnpike. Eight temporary support towers are to be built to support the bridge. These towers will support the entire weight of the impacted section of the bridge to allow for a repair splice to be installed on the damaged truss and tested. Other parts of the bridge will also be tested, since so much weight shifted. If the repair is unsuccessful, the bridge may need a partial reconstruction or replacement. If the repair splice is successful, the current best case scenario is the bridge being reopened in early April.

### **CLOSED:**

**AMBER ALERT/MISSING CHILD – Columbia County, 2/4/17** - The Pennsylvania State Police issued an Amber Child Abduction Alert for the Bloomsburg Barracks Columbia County. On February 5, 2017, at approximately 7:00 PM, a two year old white female, was believed

to be abducted from the 2200 Block of West Front Street in Berwick, Columbia County, Pennsylvania. The child was found safe and the Amber Alert has been cancelled.
