

OFFICE OF THE DIRECTOR

DATE:

January 19, 2024

TO:

The Honorable Josh Shapiro
Governor
Commonwealth of Pennsylvania

FROM:

Randy Padfield
Director, PA Emergency Management Agency

TIME PERIOD:

This report covers the period from 0600 hours, January 18, 2024, through 0600 hours, January 19, 2024.

STATUS REPORT: (as of 0600 hours)

THREAT STATUS:

National Terrorism Advisory System: There are no current advisories.

Commonwealth Response Coordination Center (CRCC) Status: Limited Partial Activation – Winter Storm

County EOC Activations: Philadelphia County – Winter Storm

Municipal EOC Activations: None

CAPABILITIES STATUS:

PA All-Hazards Type-3 Incident Management/ Team – Mission Capable
PA-Task Force 1 (PA-TF1) – Mission Capable

INFRASTRUCTURE STATUS:

Major Road Closures: None
Power Outage Reports: As of 0600 hours, 81 customers
Telephone Outage Reports: None

SIGNIFICANT EVENTS:

OPEN:

ADVERSE WEATHER 01/19 – 01/20 – Statewide – A severe snow system began crossing the state in the early morning hours on 1/19/24 resulting in Winter Storm Watches, Winter Storm Warnings, and/or Winter Weather Advisories being issued for most of the state. The Commonwealth Response Coordination Center (CRCC) has activated to a Limited Partial Activation status. Many offices under the Governor’s jurisdiction will be closed on 1/19/24. The Philadelphia Office of Emergency Management (OEM) has activated their Emergency Operations Center (EOC) at a Limited level in response to the Snow Emergency declared for Philadelphia. PennDOT and the PA Turnpike have issued vehicle and speed restrictions for roadways impacted by the weather.

ADVERSE WEATHER 01/15 – 01/17 – Statewide – Snow crossing the Commonwealth has caused numerous road closures, speed restrictions and traffic disruptions. Many school districts were on a delayed opening. There was a two-hour delay for all State Offices.

ADVERSE WEATHER 01/09 – 01/10 – Statewide, 1/09/24 - Rain crossed the Commonwealth causing flooding in the central and eastern regions. The National Weather Service issued numerous Flood Watches and Warnings, with flooding causing numerous road closures and restrictions. Local responders assisted with evacuations in numerous counties due to rising waters. Shelters were opened in Lehigh, Bucks and Delaware Counties, the shelters in Lehigh and Bucks have since closed. Eight county EOC’s were activated, all have since closed. PennDOT issued speed and vehicle restrictions for several interstate highways, all of which have been lifted.

COURTHOUSE CLOSURE – Bradford County, 1/4/24 - A smoke condition from an elevator belt fire closed the Bradford County Courthouse in Towanda Borough. The fire was extinguished, and the facility was ventilated. The courthouse was closed for the remainder of the day for cleaning. County offices not located in the courthouse operated under normal conditions. No injuries or HAZMAT issues were reported. The courthouse remains open. The elevator is still out of service. Effective 1/15/24, the Court of Common Pleas will partially enact their Continuity of Operations Plan (COOP). EMA and Court Admin staff are working on an alternative plan for jury trials the week of 1/22/24.

ADVERSE WEATHER 12/17- 12/18 – Statewide, 12/17/23 - Rain crossing Pennsylvania caused flooding in the central and eastern regions of the Commonwealth. The National Weather Service issued Flood and Flash Flood Warnings. Roadway flooding occurred in multiple counties that closed or restricted lanes. Local fire units evacuated eight residents to the Community Center in Darby Borough, Delaware County. Delaware County virtually activated their Emergency Operations Center (EOC) and Luzerne County EOC was reported to be enhanced. All EOCs have returned to normal operations. All Flash Flood Warnings have expired, and all Flood Warnings expired on 12/19/23. A Declaration of Disaster Emergency was issued by the Borough of Collingdale, Delaware County.

TRAIN VS TRACTOR TRAILER – Somerset County, 8/23/23 - A CSX freight train (L10023) struck a tri-axle truck hauling a trailered bulldozer at Cottage Lane and Carpenters Park Road in Paint Township (Windber). The locomotive had a 2,000-gallon fuel tank that was nearly full when the collision occurred. The tank was slit down the side releasing fuel oil down the right of way and eventually into the Stonycreek River. Two injured CSX employees were transported to local hospitals for treatment. PA Department of Environmental Protection (DEP) and PA Fish and Boat Commission (FBC) responded. No fish kills were reported. CSX submitted NRC # 1377002. The leak at the tank was stopped and the river was boomed. Fuel was transferred out of the locomotive tank until they ran out of drums. Downstream notifications were made to Cambria County, including two nurseries. The PA FBC notified recreational groups that use the river. The road remains closed in the area. SPSI is the cleanup

contractor, and on 8/24/23, they added hard boom around the soft boomed area below the locomotive, replaced the absorbents twice, and placed a second hard boom across the river at the bridge. As of 8/30/23, after rains overnight the right of way for mitigation efforts held. SPSI is scheduled to vacuum the collection area on 9/1/23; and remove the hard and absorbent boom from across the river. This will reopen the river for recreation. A semi-circle will remain with additional hard booms and buoys to create a buffer zone for the recreational vessels navigating nearby. Local recreational clubs and Cambria County were notified to allow nurseries to pull water from Stonycreek River. The roadway remains closed but that is because of another scheduled project that is occurring in the area. On 9/8/23, a 15-day report is being prepared by CSX to submit to PA DEP. Excavating the track ballast may compromise the integrity of the stream bank and track ballast and would close the track for an extended period. SPSI is looking at other options to facilitate the collection of fuel. PA DEP recommended discussions with their Clean Water Program as it would directly relate to the absorbent and collection booms that are being deployed at this time. The track remains closed. As of 9/21/23 - the terrain is not conducive to an interceptor trench and excavation is not considered an alternative. ARCADIS/SPSI looking to potentially flushing the soil with water. As of 11/3/2023, SPSI had been periodically replacing out the absorbents in the Stonycreek River during the month of October. SPSI was waiting on rain to flush the fuel to the absorbents however there was little rain in the last month to achieve this goal. On 11/2-3/23, SPSI utilized a vacuum to remove 4" of the contaminated rock/soil along the track and ballast. They will replace all of it with new rock. SPSI is also planning to flush the embankment on their own to the absorbents. The PFBC and DEP were both on-site during this recent remediation operation. Due to heavy rains on 11/22/23, most of the absorbent booms washed away and will be replaced.

TRAIN DERAILMENT – Columbiana County, Ohio, 2/3/23 - On 2/3/23 at 2130 hours, mutual aid crews from Beaver County responded to a train derailment near Taggart Street, East Palestine, Ohio. Approximately 53 railcars derailed and some of them caught fire. There were five cars of vinyl chloride within the wreckage. Around 2330 hours a call was received from an Environmental Protection Agency (EPA) Region 3 representative, and they advised there was no current impact to PA. EPA Region 5 and Ohio EPA set up air monitoring equipment and they also used handheld monitors, and nothing was detected. Members of the PA Department of Environmental Protection (DEP) Southwest Regional Office were also onsite monitoring through daylight and maintained a presence until there was no threat to PA. An IMAAC model showed a potential impact to residences in PA if harmful chemicals were released from any of the derailed cars. Beaver County EMA Coordinator reported that they followed Columbiana County, Ohio's lead and a message was sent out to 16 registered users in the one-mile zone to shelter in place. Ohio later changed their message to an evacuation, but Beaver County remained as a shelter-in-place due to no residences being impacted. Shell Monaca was provided green foam to help extinguish the fires. Clean-up contractors from SPSI and Hepaco responded to the scene. The shelter-in-place order remained in effect for Beaver County. Beaver County sent tankers from nine departments and an engine to assist in drafting from a lake in town once the railroad deemed it was safe. As of 2/5/23, Columbiana County, Ohio EMA recommended a one-mile evacuation around the incident due to one of the vinyl chloride rail cars showing a temperature increase. This included the 10 homes that were sheltering in place within Beaver County. On 2/6/23, all 20 homes in the PA evacuation zone were evacuated. Beaver County Animal Response Team (CART) requested assistance for trailers from Washington and Westmoreland counties to assist with the evacuation of farm animals from Kindred Spirits Rescue Farm. The recommended evacuation zone remained at one mile. The Pennsylvania Emergency Management Agency (PEMA) ordered a partial activation of the Commonwealth Response Coordination Center (CRCC) at 1100 hours and Beaver County Emergency Operations Center (EOC) partially activated. A planned controlled detonation was performed to empty five rail cars into a trench to burn off the vinyl chloride.

Norfolk Southern established a Family Assistance Center for affected residents in New Waterford, Ohio; Beaver Valley Intermediate School remained open. On 2/7/23, the plume from the controlled detonation on 2/6/23 dissipated with no significant air detection identified by EPA Region 3 or PA DEP. Norfolk Southern conducted wrecking operations of damaged cars at the sight. Normal readings were reported by the Ohio Civil Support Team after monitoring the inside of three residences. The Ohio Department of Natural Resources reported approximately 1,800 fish killed within the streams and creeks that were affected. Air monitoring continued and there were no contaminants or concerns. The PEMA CRCC demobilized on 2/8/23 at 1600 hours. All roads that were closed in PA, including PA-51, were reopened. The Beaver County EOC deactivated at 1200 hours on 2/10/23. A public inquiry line remains operational. On 2/14/23, the EPA identified three other chemicals that were part of the train. They continued to monitor the air and waterways for contamination. On 2/23/23, PEMA, in conjunction with the Departments of Health (DOH) and Environmental Protection, launched a website to provide information to Commonwealth residents about the derailment. On 2/28/23, the Pennsylvania Department of Health opened a Health Resource Center in Darlington Township, Beaver County for residents of Beaver and Lawrence counties who have health concerns following the Norfolk Southern train derailment. On 3/1/23, door-to-door surveys were conducted for 22 households within the 1-mile evacuation zone. Additional discussion led to a decision to do CDC outreach (door knocking) within the 2-mile radius in Pennsylvania, which began on 3/2/23. Approximately 450 healthcare providers participated in three webinars conducted on 2/28/23 and 3/1/23 for major medical providers in the Southwestern Region. Sample testing and review on Norfolk Southern soil sampling continued by Commonwealth agencies. The EPA Region 3 Director accompanied by staff, Pennsylvania Senator Casey, and Representative Deluzio toured the site on 3/2/23. On Monday, 3/6/23, Pennsylvania Governor Shapiro announced that Norfolk Southern has agreed to pay Pennsylvania millions of dollars for the impacts of the train derailment. Norfolk Southern agreed to reimburse local fire departments to replace contaminated or damaged equipment used during the response to the derailment, to provide funds for a Community Relief Fund to be run by officials in Beaver and Lawrence counties, and to reimburse state agencies (DEP, DOH, and PEMA) for associated costs. Norfolk Southern collected soil samples with representatives from the EPA present. Removal of the train tracks closest of Pennsylvania began over the weekend and was completed 3/5/23. Excavation of the contaminated soil began, and odors were expected to be released into the air. Air monitoring was increased during the process which is expected to take at least three to four days depending on the depth of the contaminants in the soil. The EPA requested Norfolk Southern to provide additional financial assistance to residents within one mile of the derailment site if they are impacted by the odors released during the excavation of the soil which the company has agreed too. Pennsylvania state agencies supported another East Palestine Community Resource Fair this Thursday at the East Palestine High School. Beaver County coordinated a separate Community Resource Fair for Pennsylvania residents for the following week which the state agencies supported. U.S. Senator Bob Casey completed a quick tour and talk at the Health Resource Center Monday morning. A Norfolk Southern contracted company sampled 16 private wells in Pennsylvania. DEP sampled 27 private wells in the area as of Monday with more sampling expected 3/7/23. On 3/8/23 DHS coordinated a call with Beaver and Lawrence counties about the possibility of applying for a Substance Abuse and Mental Health Services Administration (SAMHSA) Emergency Response Grant (SERG) to provide funding for additional behavioral health services that may be required following this incident. DOH and PEMA also participated in the call. Excavation work at the site was temporarily stopped due to elevated readings and release of odor. The excavation of the soil at the south tracks of the derailment site was mostly complete. As of 3/13/23, Norfolk Southern was waiting on soil samples to come back from the elevated spots that were detected. Due to contaminants being detected during the initial excavation at two to four inches, additional sampling was done at 12 to 15 inches to make sure all contaminated soil is removed. Soil excavation for the north

track was still in the planning process. As of 3/16/23, the excavation of the soil at the south tracks of the derailment site was completed. The Health Resource Center (HRC) completed its final daily operational period at 1400, 3/16/23. The HRC moved to operations on Thursdays beginning 3/23/23. Excavation of the north track and removal of contaminated soil and water continued. OSHA joined the on-site operations to provide support to the safety officer and ensure that the community and personnel are safe during operations. EPA Region 5 conducted an information session focused on air quality and air monitoring on 4/27/23. EPA Region 5 conducted an information session focused on surface water on Thursday, May 11, at the Way Station and First United Presbyterian Church in East Palestine. As of 6/27/23, excavation underneath Pleasant Drive was complete, and the roadway was opened for traffic on 6/28/23. Contamination underneath the north and south tracks was removed, and both tracks are fully operational. As of 7/11/23, surface and ground water sampling plans for the remainder of the cleanup have been approved by EPA. In addition, gravel was laid on the turnaround on East Martin Street in preparation for asphalt to help control erosion and dust. A site storm water inspection was conducted, and additional storm water controls were put into place to improve the existing storm water management plan. EPA hosted a site progress information session on 7/20/23 at the First United Presbyterian Church in East Palestine. Activities are ongoing. As of 7/31/23, Norfolk Southern offered help with indoor cleaning for homes and business for those within the one-to-two-mile Ohio-Pennsylvania evacuation zone.

CLOSED:

TRAIN VS VEHICLE - Westmoreland County, 1/18/24 - A Norfolk Southern freight train struck an unoccupied disabled vehicle at Gray Station Rd and Scotia Lane in Derry Township (Crossing # 507644G). The train was stopped blocking one of two lines at the scene. AMTRAK Train 43 was delayed due to the stoppage and was routed on to the second line past the scene. The line was open and all county and railroad personnel were clear in approximately five hours.

GAS ODOR INVESTIGATION - Somerset County, 1/18/24 - An odor of natural gas was reported outside the PennDOT Driver License Center at 5593 Glades Pike in Somerset Township prompting the evacuation of the building. Columbia Gas and UGI responded. The scene was turned over to UGI to make unspecified repairs.

INDOOR GAS ODOR INVESTIGATION - Northampton County, 1/18/24 - Units responded to the Moravian House Retirement Home at 70 W. North Street in Bethlehem City for a gas odor investigation. The building was evacuated. There was five persons having symptoms. EMS evaluated one patient who refused transport. The others walked away from the scene. All residents were back in their apartments in just over one hour.

ROAD CLOSURE - Jefferson County, 1/18/24 - Interstate 80 West was closed at Exit 81 in Brookville Borough due to two tractor trailers involved in a crash at mile marker 79. Approximately 100 gallons of liquid egg and 90 to 100 gallons of diesel fuel leaked. The trapped queue was cleared in under 30 minutes. The left lane was open in approximately four hours and the road was open in six hours.

HEATING ISSUE - Northampton County, 1/17/24 - Weston Rehab and Nursing located at 1896 Leithsville Road in Lower Saucon Township experienced a partial heating loss. Small heaters were placed in the affected areas. They were in contact with local and county Emergency Management Agencies and the PA Department of Health who followed-up with the facility on Thursday. There were no evacuations or relocations of any residents in the facility, and they were otherwise operating at normal function. The facility reported that everything was stable as of yesterday morning. Additional outside resources were not needed.

ADVERSE WEATHER 01/12 – 01/13 – Statewide, 1/12/24 - A strong low-pressure system moved into the Commonwealth from the Ohio Valley overnight spreading rain along with gusty winds across the entire Commonwealth causing federal/state/local road closures, vehicle accidents, downed trees/wires, and power outages. The Laurel Mountains, northern mountains, and portions of the central mountains saw accumulating snow that turned to rain. The National Weather Service issued High Wind Warnings, Flood Watches, Flood Warnings, and Coastal Flood Warnings for several counties. The Coastal Flood Warning remains in place until 1900 hours on 1/13/24 for Bucks, Delaware, and Philadelphia Counties. The High Wind Warnings for Cambria and Somerset Counties expired at 2100 hours on 1/13/24 and for Erie County at 0100 hours on 1/14/24. A Flood Warning was issued until 0815 hours on 1/13/24 for Lehigh and Montgomery Counties due to expected flooding along the Perkiomen Creek. Weather Speed and Road Restrictions were issued for several interstate highways as the system moved across the Commonwealth. All speed and road restrictions have been lifted except for a 55mph speed restriction on I-81 in both directions between Exits 90 (PA-72) and 138 (PA-309). Power outages peaked overnight at 29,477 customers. On 1/13/24 Clinton County power was restored for the Kettle Creek area. I-80 has 45 MPH speed restrictions in place from the Ohio state line to Exit 42 and the Ohio state line to Exit 123. Also, 55 MPH speed restrictions are active on I-80 from Exit 42 to Exit 123. 1/14/24 – Four warming shelters, two in Susquehanna County, one each in Union County and Northampton County were opened. The Susquehanna and Northampton shelters are closed, but Union County remains open. All vehicle restrictions were lifted at 0600 hours.

DISASTER DECLARATIONS:

12/18/23 – The Borough of Collingdale, Delaware County issued a Declaration of Disaster Emergency due to flooding that occurred on 12/18/23.

11/22/23 – Carbon County issued a Declaration of Disaster Emergency due to an electrical power emergency that occurred on or about 11/21/23.

9/25/23 – Blawnox Borough, Allegheny County has issued a Declaration of Disaster Emergency due to a water main break and damages to Freeport Road.

9/23/23 – Oxford Borough, Chester County has issued a Continuation of the Declaration of Disaster Emergency due to the multi-building structure fire on 9/13/23.

9/19/23 – Fairchance Borough, Fayette County issued a Declaration of Disaster Emergency due to a dam issue that has caused or threatens to cause injury, damage, and suffering to the persons and property of Fairchance Borough on or about 9/19/23.

9/14/23 – Northmoreland Township, Wyoming County issued a Declaration of Disaster Emergency due to flooding on 9/9/23.

9/14/23 – Factoryville Borough, Wyoming County issued a Declaration of Disaster Emergency due to flooding on 9/9/23.

9/14/23 – Oxford Borough, Chester County has issued a Declaration of Disaster Emergency due to the multi-building structure fire on 9/13/23.

09/13/23 – Wyoming County has issued a Declaration of Disaster Emergency due to the Flash Flooding event that occurred on 9/9/23.

9/13/23 – Clifford Township, Susquehanna County issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

9/11/23 – Mehoopany Township, Wyoming County, issued a Declaration of Disaster Emergency due to flooding on 8/18/23.

9/10/23 – Overfield Township, Wyoming County issued a Declaration of Disaster Emergency due to flooding on 9/9/23.

9/10/23 – Lackawanna County has issued a Declaration of Disaster Emergency due to the severe thunderstorms and flooding of 9/9/23 through 9/10/23.

9/9/23 – Exeter Township, Wyoming County, issued a Declaration of Disaster Emergency due to flooding on 9/9/23.

9/9/23 – Falls Township, Wyoming County, issued a Declaration of Disaster Emergency due to flooding on 9/9/23.

09/06/23 – Wyoming County has issued a Declaration of Disaster Emergency due to the Flash Flooding event that occurred on 8/18/23.

08/24/23 – Forest Lake Township, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/23/23 – New Milford Township, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/23/23 – Harford Township, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/23/23 – Susquehanna Depot Borough, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/19/23 – Forkston Township, Wyoming County has issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/18/23 – Rush Township, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/18/23 – Susquehanna County issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

8/14/23 – Plum Borough, Allegheny County, issued a Declaration of Disaster Emergency due to a house explosion on 8/13/23.

8/9/23 – Concord Township, Delaware County, issued a Declaration of Disaster Emergency due to adverse weather on 8/7/23.

8/8/23 – Chadds Ford Township, Delaware County, issued a Declaration of Disaster Emergency due to adverse weather on 8/7/23. It was renewed for another seven days on 8/14/23.

8/8/23 – York County issued a Declaration of Disaster Emergency due to adverse weather on 8/7/23.

7/24/23 – Forks Township, Northampton County, issued a Declaration of Disaster Emergency due to flooding on 7/16/23.

7/17/23 - Washington Township, Northampton County issued a Declaration of Disaster Emergency due to flooding on 7/16/23.

7/17/23 – Bucks County issued a Declaration of Disaster Emergency for adverse weather on 7/16/23.

6/28/23 - U.S. Small Business Administration issued a notice of an Economic Injury Disaster Loan (EIDL) declaration, #17973 for the R.M. Palmer Company Factory Explosion that occurred on 3/24/23. The primary county affected is Berks, and the contiguous counties affected are Chester, Lancaster, Lebanon, Lehigh, Montgomery, and Schuylkill. The loan application deadline date is 3/28/24.

6/16/23 – West Caln Township, Chester County issued a Declaration of Disaster Emergency due to adverse weather and storm damage throughout the township on 6/16/23.

6/12/23 - Governor Josh Shapiro issued a proclamation of disaster emergency for Philadelphia County in response to the I-95 fire and collapse on 6/11/23. The governor's proclamation makes \$7 million of state funds immediately available for the reconstruction of the roadway and authorizes the Pennsylvania Emergency Management Agency, the Department of Transportation, and the Pennsylvania State Police to use all available resources and personnel, as necessary. This proclamation will remain in place for 21 days, unless extended by the Legislature.

9/10/21 - The Honorable Tom Wolf, Governor of the Commonwealth of Pennsylvania, requested a major disaster declaration from the President through the Federal Emergency Management Agency to provide additional support for state, county and municipal governments, and individuals affected by the remnants of Hurricane IDA between 8/31/21 and 9/5/21. The declaration includes Individual Assistance to individuals and households in Bucks, Chester, Delaware, Montgomery, Philadelphia, and York counties, and assistance under the Hazard Mitigation Grant Program in all areas of the Commonwealth. Public Assistance is under review. The President approved the declaration on 9/10/21 under Major Disaster Declaration FEMA-4618-DR. 9/24/21 – Amendment No. 1 designates Bedford and Northampton counties for Individual Assistance. 10/8/21 – Amendment No. 2 designates Bucks, Chester, and Montgomery counties for Public Assistance (already designated for Individual Assistance). 10/14/21 – Amendment No. 3 designates Bedford, Philadelphia, and York counties for Public Assistance (already designated for Individual Assistance). Plus, Fulton, Huntingdon, Luzerne, and Schuylkill counties for Public Assistance. 10/20/21 – Amendment No. 4 designates Delaware County for Public Assistance (already designated for Individual Assistance), and Dauphin County for Public Assistance.

8/31/21 - The Honorable Tom Wolf, Governor of the Commonwealth of Pennsylvania, signed a statewide Proclamation of Disaster Emergency on 8/31/21 in response to severe weather event Hurricane Ida that impacted the Commonwealth of Pennsylvania causing widespread threats of serious flash and riverine flooding and other adverse impacts throughout the Commonwealth.

3/30/20 - Governor Tom Wolf requested a major disaster declaration from the President through the Federal Emergency Management Agency to provide additional support for state, county and municipal governments and certain nonprofits, as well as individuals who are struggling during the COVID-19 outbreak. The request for a major disaster declaration will provide the same emergency protective measures available under the nationwide emergency proclamation; the following Individual Assistance programs: Disaster Unemployment Assistance, Crisis Counseling, Community Disaster Loans, and the Disaster Supplemental Nutrition Program; and Statewide Hazard Mitigation. The President approved the declaration on 3/30/20 under Major Disaster Declaration FEMA-4506-DR.

3/13/20 - An Emergency Declaration for Public Assistance Emergency Protective Measures was issued on March 13, 2020, for all Pennsylvania counties to cover eligible costs that are directly associated with the Emergency Protective Measures being taken to respond to and protect the residents of Pennsylvania from the COVID-19 virus. The designation is EM-3441.

11/27/18 - A Major Disaster Declaration was declared on 11/27/18 for severe storms and flooding that occurred 8/10/18 - 8/15/18. Public Assistance (Cat A-G) was approved for Bradford, Columbia, Lackawanna, Lycoming, Montour, Northampton, Schuylkill, Sullivan, Susquehanna, Tioga, and Wyoming counties. In addition, all areas in the Commonwealth of Pennsylvania are eligible for assistance under the Hazard Mitigation Grant Program. The designation is FEMA-4408-DR.

12/2/16 - A Major Disaster Declaration for Public Assistance (Cat A-G) was declared on December 2, 2016, for Bradford, Centre, Lycoming, and Sullivan counties. In addition, all areas in the Commonwealth of Pennsylvania are eligible for assistance under the Hazard Mitigation Grant Program. The designation is FEMA-4292-DR.

CONTIGUOUS STATE EVENTS OF POTENTIAL INTEREST TO PENNSYLVANIA:

Delaware:	Enhanced Watch - Severe Weather
Maryland:	Enhanced Monitoring - Severe Weather
New Jersey:	Enhanced Monitoring - Severe Weather
New York:	Normal Operations
Ohio:	Normal Operations
West Virginia:	Enhanced Watch - Severe Weather

24-Hour Projected Weather Statewide:

National Weather Service, 0422 hours, 1/19/24

Snow will overspread the Keystone State this morning and continue through the afternoon before tapering to snow showers and flurries later this evening through Saturday. Snow accumulation will range from 1 to 3 inches in the Poconos to more than 6 inches in the Laurel Highlands. High temperatures today will range from around 20 degrees in the northern tier to around 30 degrees near the Philadelphia metro area.

Conditions will turn blustery and bitter cold tonight through Saturday with frigid wind chills as another arctic airmass invades the Commonwealth. Highs on Saturday in the teens to lower 20s will be 15 to 20 degrees below the historical average for mid to late January, which is significant given that we are entering the climatological dead of winter.

Despite a couple of cold mornings Sunday and especially Monday, a pattern shift will bring a noticeable warming trend next week.

WATCHES AND WARNINGS:

A Winter Storm Warning is in effect until 2200, 1/19/24 for the following counties: Bucks, Chester, Delaware, Montgomery, and Philadelphia

A Winter Storm Warning is in effect until 1000, 1/20/24 for the following counties: Fayette, Somerset, and Westmoreland

A Winter Storm Warning is in effect until 0400, 1/21/24 for the following counties: Crawford and Erie
