

OFFICE OF THE DIRECTOR

**DATE:**

March 1, 2024

**TO:**

The Honorable Josh Shapiro  
Governor  
Commonwealth of Pennsylvania

**FROM:**

Randy Padfield  
Director, PA Emergency Management Agency

**TIME PERIOD:**

This report covers the period from 0600 hours, February 29, 2024, through 0600 hours, March 1, 2024.

**STATUS REPORT:** (as of 0600 hours)

**THREAT STATUS:**

**National Terrorism Advisory System:** There are no current advisories.

**Commonwealth Response Coordination Center (CRCC) Status:** Normal Operations

**County EOC Activations:** None

**Municipal EOC Activations:** None

**CAPABILITIES STATUS:**

**PA All-Hazards Type-3 Incident Management / Team – Mission Capable**  
**PA-Task Force 1 (PA-TF1) – Mission Capable**

**INFRASTRUCTURE STATUS:**

**Major Road Closures:** None  
**Power Outage Reports:** As of 0530 hours, 1,500 customers  
**Telephone Outage Reports:** None

**SIGNIFICANT EVENTS:**

**OPEN:**

**MISSING ENDANGERED PERSON ADVIORY (MEPA) – York County, 2/29/24 -** A MEPA was issued for a 55-year-old male last seen in the area of the 7600 block of Seneca Ridge

Drive, Springfield Township on 02/27/24 at approximately 0900. He is described as 5 feet 9 inches tall, 185 pounds, black and grey hair, brown eyes, and unknown clothing description. He is operating a white Chevrolet work van. Police believe this person may be at special risk of harm or injury.

**ADVERSE WEATHER – Statewide, 2/28/24** – A severe storm-system crossed the Commonwealth yesterday with strong winds and bands of rain showers. This system caused temperatures to drop and the formation of Black Ice on some roadways. Black Ice and high wind gusts caused commercial vehicle accidents, road closures, and downed trees and power lines in some areas. Several severe thunderstorms warnings, flood watches, high wind warnings were issued across Pennsylvania; all of which have expired. The Commonwealth Watch and Warning Center continues to monitor the weather system and its impacts on Pennsylvania and its infrastructure.

**HAN HEALTH ADVISORY – Statewide, 2/24/24** - A Health Alert Network (HAN) Health Advisory message from the Pennsylvania Department of Health (PADOH) was received stating the Erie County Department of Health (ECDOH), supported by the PADOH, is investigating a confirmed case of hepatitis A in a food handler who worked while infectious at the Cracker Barrel restaurant located at 7810 Interstate Drive in Summit Township, Erie County. Restaurant staff who worked at the restaurant and patrons who consumed food and/or drinks prepared by the restaurant between January 30, 2024, and February 21, 2024, may have been exposed to the hepatitis A virus. Detailed information and recommendations can be found in PADOH HAN Advisory (2024-PAHAN-736-2-24-ADV).

**ADVERSE WEATHER 12/17- 12/18 – Statewide, 12/17/23** - Rain crossing Pennsylvania caused flooding in the central and eastern regions of the Commonwealth. The National Weather Service issued Flood and Flash Flood Warnings. Roadway flooding occurred in multiple counties that closed or restricted lanes. Local fire units evacuated eight residents to the Community Center in Darby Borough, Delaware County. Delaware County virtually activated their Emergency Operations Center (EOC) and Luzerne County EOC was reported to be enhanced. All EOCs have returned to normal operations. All Flash Flood Warnings have expired, and all Flood Warnings expired on 12/19/23. A Declaration of Disaster Emergency was issued by the Borough of Collingdale, Delaware County.

**TRAIN VS TRACTOR TRAILER – Somerset County, 8/23/23** - A CSX freight train (L10023) struck a tri-axle truck hauling a trailered bulldozer at Cottage Lane and Carpenters Park Road in Paint Township (Windber). The locomotive had a 2,000-gallon fuel tank that was nearly full when the collision occurred. The tank was slit down the side releasing fuel oil down the right of way and eventually into the Stonycreek River. Two injured CSX employees were transported to local hospitals for treatment. PA Department of Environmental Protection (DEP) and PA Fish and Boat Commission (FBC) responded. No fish kills were reported. CSX submitted NRC # 1377002. The leak at the tank was stopped and the river was boomed. Fuel was transferred out of the locomotive tank until they ran out of drums. Downstream notifications were made to Cambria County, including two nurseries. The PA FBC notified recreational groups that use the river. The road remains closed in the area. SPSI is the cleanup contractor, and on 8/24/23, they added hard boom around the soft boomed area below the locomotive, replaced the absorbents twice, and placed a second hard boom across the river at the bridge. As of 8/30/23, after rains overnight the right of way for mitigation efforts held. SPSI is scheduled to vacuum the collection area on 9/1/23; and remove the hard and absorbent boom from across the river. This will reopen the river for recreation. A semi-circle will remain with additional hard booms and buoys to create a buffer zone for the recreational vessels navigating nearby. Local recreational clubs and Cambria County were notified to allow nurseries to pull water from Stonycreek River. The roadway remains closed but that is because

of another scheduled project that is occurring in the area. On 9/8/23, a 15-day report is being prepared by CSX to submit to PA DEP. Excavating the track ballast may compromise the integrity of the stream bank and track ballast and would close the track for an extended period. SPSI is looking at other options to facilitate the collection of fuel. PA DEP recommended discussions with their Clean Water Program as it would directly relate to the absorbent and collection booms that are being deployed at this time. The track remains closed. As of 9/21/23 - the terrain is not conducive to an interceptor trench and excavation is not considered an alternative. ARCADIS/SPSI looking to potentially flushing the soil with water. As of 11/3/2023, SPSI had been periodically replacing out the absorbents in the Stonycreek River during the month of October. SPSI was waiting on rain to flush the fuel to the absorbents however there was little rain in the last month to achieve this goal. On 11/2-3/23, SPSI utilized a vacuum to remove 4" of the contaminated rock/soil along the track and ballast. They will replace all of it with new rock. SPSI is also planning to flush the embankment on their own to the absorbents. The PFBC and DEP were both on-site during this recent remediation operation. Due to heavy rains on 11/22/23, most of the absorbent booms washed away and were replaced. SPSI continues to change out the absorbents a few times each week.

**TRAIN DERAILMENT – Columbiana County, Ohio, 2/3/23** - On 2/3/23 at 2130 hours, mutual aid crews from Beaver County responded to a train derailment near Taggart Street, East Palestine, Ohio. Approximately 53 railcars derailed and some of them caught fire. There were five cars of vinyl chloride within the wreckage. Around 2330 hours a call was received from an Environmental Protection Agency (EPA) Region 3 representative, and they advised there was no current impact to PA. EPA Region 5 and Ohio EPA set up air monitoring equipment and they also used handheld monitors, and nothing was detected. Members of the PA Department of Environmental Protection (DEP) Southwest Regional Office were also onsite monitoring through daylight and maintained a presence until there was no threat to PA. An IMAAC model showed a potential impact to residences in PA if harmful chemicals were released from any of the derailed cars. Beaver County EMA Coordinator reported that they followed Columbiana County, Ohio's lead and a message was sent out to 16 registered users in the one-mile zone to shelter in place. Ohio later changed their message to an evacuation, but Beaver County remained as a shelter-in-place due to no residences being impacted. Shell Monaca was provided green foam to help extinguish the fires. Clean-up contractors from SPSI and Hepaco responded to the scene. The shelter-in-place order remained in effect for Beaver County. Beaver County sent tankers from nine departments and an engine to assist in drafting from a lake in town once the railroad deemed it was safe. As of 2/5/23, Columbiana County, Ohio EMA recommended a one-mile evacuation around the incident due to one of the vinyl chloride rail cars showing a temperature increase. This included the 10 homes that were sheltering in place within Beaver County. On 2/6/23, all 20 homes in the PA evacuation zone were evacuated. Beaver County Animal Response Team (CART) requested assistance for trailers from Washington and Westmoreland counties to assist with the evacuation of farm animals from Kindred Spirits Rescue Farm. The recommended evacuation zone remained at one mile. The Pennsylvania Emergency Management Agency (PEMA) ordered a partial activation of the Commonwealth Response Coordination Center (CRCC) at 1100 hours and Beaver County Emergency Operations Center (EOC) partially activated. A planned controlled detonation was performed to empty five rail cars into a trench to burn off the vinyl chloride. Norfolk Southern established a Family Assistance Center for affected residents in New Waterford, Ohio; Beaver Valley Intermediate School remained open. On 2/7/23, the plume from the controlled detonation on 2/6/23 dissipated with no significant air detection identified by EPA Region 3 or PA DEP. Norfolk Southern conducted wrecking operations of damaged cars at the sight. Normal readings were reported by the Ohio Civil Support Team after monitoring the inside of three residences. The Ohio Department of Natural Resources reported approximately 1,800 fish killed within the streams and creeks that were affected. Air monitoring continued and there were no contaminants or concerns. The PEMA CRCC

demobilized on 2/8/23 at 1600 hours. All roads that were closed in PA, including PA-51, were reopened. The Beaver County EOC deactivated at 1200 hours on 2/10/23. A public inquiry line remains operational. On 2/14/23, the EPA identified three other chemicals that were part of the train. They continued to monitor the air and waterways for contamination. On 2/23/23, PEMA, in conjunction with the Departments of Health (DOH) and Environmental Protection, launched a website to provide information to Commonwealth residents about the derailment. On 2/28/23, the Pennsylvania Department of Health opened a Health Resource Center in Darlington Township, Beaver County for residents of Beaver and Lawrence counties who have health concerns following the Norfolk Southern train derailment. On 3/1/23, door-to-door surveys were conducted for 22 households within the 1-mile evacuation zone. Additional discussion led to a decision to do CDC outreach (door knocking) within the 2-mile radius in Pennsylvania, which began on 3/2/23. Approximately 450 healthcare providers participated in three webinars conducted on 2/28/23 and 3/1/23 for major medical providers in the Southwestern Region. Sample testing and review on Norfolk Southern soil sampling continued by Commonwealth agencies. The EPA Region 3 Director accompanied by staff, Pennsylvania Senator Casey, and Representative Deluzio toured the site on 3/2/23. On Monday, 3/6/23, Pennsylvania Governor Shapiro announced that Norfolk Southern has agreed to pay Pennsylvania millions of dollars for the impacts of the train derailment. Norfolk Southern agreed to reimburse local fire departments to replace contaminated or damaged equipment used during the response to the derailment, to provide funds for a Community Relief Fund to be run by officials in Beaver and Lawrence counties, and to reimburse state agencies (DEP, DOH, and PEMA) for associated costs. Norfolk Southern collected soil samples with representatives from the EPA present. Removal of the train tracks closest of Pennsylvania began over the weekend and was completed 3/5/23. Excavation of the contaminated soil began, and odors were expected to be released into the air. Air monitoring was increased during the process which is expected to take at least three to four days depending on the depth of the contaminants in the soil. The EPA requested Norfolk Southern to provide additional financial assistance to residents within one mile of the derailment site if they are impacted by the odors released during the excavation of the soil which the company has agreed too. Pennsylvania state agencies supported another East Palestine Community Resource Fair this Thursday at the East Palestine High School. Beaver County coordinated a separate Community Resource Fair for Pennsylvania residents for the following week which the state agencies supported. U.S. Senator Bob Casey completed a quick tour and talk at the Health Resource Center Monday morning. A Norfolk Southern contracted company sampled 16 private wells in Pennsylvania. DEP sampled 27 private wells in the area as of Monday with more sampling expected 3/7/23. On 3/8/23 DHS coordinated a call with Beaver and Lawrence counties about the possibility of applying for a Substance Abuse and Mental Health Services Administration (SAMHSA) Emergency Response Grant (SERG) to provide funding for additional behavioral health services that may be required following this incident. DOH and PEMA also participated in the call. Excavation work at the site was temporarily stopped due to elevated readings and release of odor. The excavation of the soil at the south tracks of the derailment site was mostly complete. As of 3/13/23, Norfolk Southern was waiting on soil samples to come back from the elevated spots that were detected. Due to contaminants being detected during the initial excavation at two to four inches, additional sampling was done at 12 to 15 inches to make sure all contaminated soil is removed. Soil excavation for the north track was still in the planning process. As of 3/16/23, the excavation of the soil at the south tracks of the derailment site was completed. The Health Resource Center (HRC) completed its final daily operational period at 1400, 3/16/23. The HRC moved to operations on Thursdays beginning 3/23/23. Excavation of the north track and removal of contaminated soil and water continued. OSHA joined the on-site operations to provide support to the safety officer and ensure that the community and personnel are safe during operations. EPA Region 5 conducted an information session focused on air quality and air monitoring on 4/27/23. EPA Region 5 conducted an information session focused on surface water on Thursday, May 11, at the Way

Station and First United Presbyterian Church in East Palestine. As of 6/27/23, excavation underneath Pleasant Drive was complete, and the roadway was opened for traffic on 6/28/23. Contamination underneath the north and south tracks was removed, and both tracks are fully operational. As of 7/11/23, surface and ground water sampling plans for the remainder of the cleanup have been approved by EPA. In addition, gravel was laid on the turnaround on East Martin Street in preparation for asphalt to help control erosion and dust. A site storm water inspection was conducted, and additional storm water controls were put into place to improve the existing storm water management plan. EPA hosted a site progress information session on 7/20/23 at the First United Presbyterian Church in East Palestine. Activities are ongoing. As of 7/31/23, Norfolk Southern offered help with indoor cleaning for homes and business for those within the one-to-two-mile Ohio-Pennsylvania evacuation zone.

#### **CLOSED:**

**NURSING HOME POWER EMERGENCY – Bucks County, 2/29/24** - A transformer fire / malfunction occurred in the boiler room of Neshaminy Manor Nursing Home, 1660 South Easton Road in Doylestown Township. Commercial power was lost, but backup power was supplied by the facility's generator. No residents were displaced or injured. The nursing home is a partially taxpayer funded 360 bed sub-acute/skilled care facility regulated under the Pennsylvania Department of Health. Repairs were completed and commercial power was restored.

**GAS LEAK – Northampton County, 2/29/24** - A gas leak occurred at Chefs Meals located at 56 West Water Street, Hellertown Borough when employees moving equipment broke a gas line. There was a strong odor of gas coming from the building and an unknown number of individuals were evacuated. Roadways in the area of the incident were closed and 38 individuals were evacuated from nearby businesses. A reverse 9-1-1 was initiated to have residents' shelter-in-place within a two-block radius. Hellertown Fire Department was made available as a shelter if necessary. The shelter-in-place and evacuations were lifted in under an hour after the leak was secured and negative meter readings were reported by UGI and local emergency crews.

#### **DISASTER DECLARATIONS:**

2/13/24 – Millersburg Borough has issued a Declaration of Disaster Emergency due to power outages affecting independent living facilities and apartments on 2/13/24.

2/13/24 – Tamaqua Township has issued a Declaration of Disaster Emergency due to power outages affecting independent living facilities and apartments on 2/13/24.

2/13/24 - West Penn Township has issued a Declaration of Disaster Emergency due to power outages from winter weather on 2/13/24.

2/13/24 - New Ringgold Borough issued Declaration of Disaster Emergency due to power outages from winter weather on 2/13/24.

12/18/23 – The Borough of Collingdale, Delaware County issued a Declaration of Disaster Emergency due to flooding that occurred on 12/18/23.

11/22/23 – Carbon County issued a Declaration of Disaster Emergency due to an electrical power emergency that occurred on or about 11/21/23.

9/25/23 – Blawnox Borough, Allegheny County has issued a Declaration of Disaster Emergency due to a water main break and damages to Freeport Road.

9/23/23 – Oxford Borough, Chester County has issued a Continuation of the Declaration of Disaster Emergency due to the multi-building structure fire on 9/13/23.

9/19/23 – Fairchance Borough, Fayette County issued a Declaration of Disaster Emergency due to a dam issue that has caused or threatens to cause injury, damage, and suffering to the persons and property of Fairchance Borough on or about 9/19/23.

9/14/23 – Northmoreland Township, Wyoming County issued a Declaration of Disaster Emergency due to flooding on 9/9/23.

9/14/23 – Factoryville Borough, Wyoming County issued a Declaration of Disaster Emergency due to flooding on 9/9/23.

9/14/23 – Oxford Borough, Chester County has issued a Declaration of Disaster Emergency due to the multi-building structure fire on 9/13/23.

09/13/23 – Wyoming County has issued a Declaration of Disaster Emergency due to the Flash Flooding event that occurred on 9/9/23.

9/13/23 – Clifford Township, Susquehanna County issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

9/11/23 – Mehoopany Township, Wyoming County, issued a Declaration of Disaster Emergency due to flooding on 8/18/23.

9/10/23 – Overfield Township, Wyoming County issued a Declaration of Disaster Emergency due to flooding on 9/9/23.

9/10/23 – Lackawanna County has issued a Declaration of Disaster Emergency due to the severe thunderstorms and flooding of 9/9/23 through 9/10/23.

9/9/23 – Exeter Township, Wyoming County, issued a Declaration of Disaster Emergency due to flooding on 9/9/23.

9/9/23 – Falls Township, Wyoming County, issued a Declaration of Disaster Emergency due to flooding on 9/9/23.

09/06/23 – Wyoming County has issued a Declaration of Disaster Emergency due to the Flash Flooding event that occurred on 8/18/23.

08/24/23 – Forest Lake Township, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/23/23 – New Milford Township, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/23/23 – Harford Township, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/23/23 – Susquehanna Depot Borough, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/19/23 - Forkston Township, Wyoming County has issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/18/23 – Rush Township, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/18/23 – Susquehanna County issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

8/14/23 – Plum Borough, Allegheny County, issued a Declaration of Disaster Emergency due to a house explosion on 8/13/23.

8/9/23 – Concord Township, Delaware County, issued a Declaration of Disaster Emergency due to adverse weather on 8/7/23.

8/8/23 – Chadds Ford Township, Delaware County, issued a Declaration of Disaster Emergency due to adverse weather on 8/7/23. It was renewed for another seven days on 8/14/23.

8/8/23 – York County issued a Declaration of Disaster Emergency due to adverse weather on 8/7/23.

7/24/23 – Forks Township, Northampton County, issued a Declaration of Disaster Emergency due to flooding on 7/16/23.

7/17/23 - Washington Township, Northampton County issued a Declaration of Disaster Emergency due to flooding on 7/16/23.

7/17/23 – Bucks County issued a Declaration of Disaster Emergency for adverse weather on 7/16/23.

6/28/23 - U.S. Small Business Administration issued a notice of an Economic Injury Disaster Loan (EIDL) declaration, #17973 for the R.M. Palmer Company Factory Explosion that occurred on 3/24/23. The primary county affected is Berks, and the contiguous counties affected are Chester, Lancaster, Lebanon, Lehigh, Montgomery, and Schuylkill. The loan application deadline date is 3/28/24.

6/16/23 – West Caln Township, Chester County issued a Declaration of Disaster Emergency due to adverse weather and storm damage throughout the township on 6/16/23.

6/12/23 - Governor Josh Shapiro issued a proclamation of disaster emergency for Philadelphia County in response to the I-95 fire and collapse on 6/11/23. The governor's proclamation makes \$7 million of state funds immediately available for the reconstruction of the roadway and authorizes the Pennsylvania Emergency Management Agency, the Department of Transportation, and the Pennsylvania State Police to use all available resources and personnel, as necessary. This proclamation will remain in place for 21 days, unless extended by the Legislature.

9/10/21 - The Honorable Tom Wolf, Governor of the Commonwealth of Pennsylvania, requested a major disaster declaration from the President through the Federal Emergency

Management Agency to provide additional support for state, county and municipal governments, and individuals affected by the remnants of Hurricane IDA between 8/31/21 and 9/5/21. The declaration includes Individual Assistance to individuals and households in Bucks, Chester, Delaware, Montgomery, Philadelphia, and York counties, and assistance under the Hazard Mitigation Grant Program in all areas of the Commonwealth. Public Assistance is under review. The President approved the declaration on 9/10/21 under Major Disaster Declaration FEMA-4618-DR. 9/24/21 – Amendment No. 1 designates Bedford and Northampton counties for Individual Assistance. 10/8/21 – Amendment No. 2 designates Bucks, Chester, and Montgomery counties for Public Assistance (already designated for Individual Assistance). 10/14/21 – Amendment No. 3 designates Bedford, Philadelphia, and York counties for Public Assistance (already designated for Individual Assistance). Plus, Fulton, Huntingdon, Luzerne, and Schuylkill counties for Public Assistance. 10/20/21 – Amendment No. 4 designates Delaware County for Public Assistance (already designated for Individual Assistance), and Dauphin County for Public Assistance.

8/31/21 - The Honorable Tom Wolf, Governor of the Commonwealth of Pennsylvania, signed a statewide Proclamation of Disaster Emergency on 8/31/21 in response to severe weather event Hurricane Ida that impacted the Commonwealth of Pennsylvania causing widespread threats of serious flash and riverine flooding and other adverse impacts throughout the Commonwealth.

3/30/20 - Governor Tom Wolf requested a major disaster declaration from the President through the Federal Emergency Management Agency to provide additional support for state, county and municipal governments and certain nonprofits, as well as individuals who are struggling during the COVID-19 outbreak. The request for a major disaster declaration will provide the same emergency protective measures available under the nationwide emergency proclamation; the following Individual Assistance programs: Disaster Unemployment Assistance, Crisis Counseling, Community Disaster Loans, and the Disaster Supplemental Nutrition Program; and Statewide Hazard Mitigation. The President approved the declaration on 3/30/20 under Major Disaster Declaration FEMA-4506-DR.

3/13/20 – An Emergency Declaration for Public Assistance Emergency Protective Measures was issued on March 13, 2020, for all Pennsylvania counties to cover eligible costs that are directly associated with the Emergency Protective Measures being taken to respond to and protect the residents of Pennsylvania from the COVID-19 virus. The designation is EM-3441.

11/27/18 – A Major Disaster Declaration was declared on 11/27/18 for severe storms and flooding that occurred 8/10/18 – 8/15/18. Public Assistance (Cat A-G) was approved for Bradford, Columbia, Lackawanna, Lycoming, Montour, Northampton, Schuylkill, Sullivan, Susquehanna, Tioga, and Wyoming counties. In addition, all areas in the Commonwealth of Pennsylvania are eligible for assistance under the Hazard Mitigation Grant Program. The designation is FEMA-4408-DR.

12/2/16 – A Major Disaster Declaration for Public Assistance (Cat A-G) was declared on December 2, 2016, for Bradford, Centre, Lycoming, and Sullivan counties. In addition, all areas in the Commonwealth of Pennsylvania are eligible for assistance under the Hazard Mitigation Grant Program. The designation is FEMA-4292-DR.

#### **CONTIGUOUS STATE EVENTS OF POTENTIAL INTEREST TO PENNSYLVANIA:**

<b>Delaware:</b>	Normal Operations
<b>Maryland:</b>	Normal Operations
<b>New Jersey:</b>	Normal Operations

**New York:** Normal Operations  
**Ohio:** Normal Operations  
**West Virginia:** Normal Operations

**24-Hour Projected Weather Statewide:**

**National Weather Service, 0455 hours, 3/1/24**

High-pressure passing east of Pennsylvania will supply the Commonwealth with fair and milder weather today. Sunny skies will fade behind increasing clouds late in the day over the southwest counties. Highs today will range from the low 40s over the mountains of northeast Pennsylvania, to the mid-50s in the southwest.

Low-pressure lifting up the East Coast will spread rain into the Commonwealth tonight into part of Saturday. A light wintry mix is possible at the onset of precipitation late tonight over the mountains of northeast Pennsylvania. Lows tonight will range from the low 30s over the northeast, to around 40 near the Ohio border. Highs Saturday will range from the low 40s over the northern mountains, to the mid-50s south of Pittsburgh. Partly sunny and warmer conditions are anticipated Sunday.

**WATCHES AND WARNINGS:**

None
